ih BECOMING AN ESL TEACHER

- English is the fastest growing language in the world. As the world gets smaller through technology, English becomes ever more important for international communication.
- There are hundreds of jobs waiting for you in Toronto alone and thousands more waiting for you abroad.
- ESL teachers are well paid and well respected professionals who are always in demand, wherever they may be.
- If you decide to travel and teach, it is the single greatest investment you can make. You can literally teach your way around the world for the rest of your life.
- Teaching English to international students is one of the most exciting and rewarding experiences of your life. You will not only learn about other cultures, but also have the privilege to teach others about your culture and your language.

ih TEACHER TRAINING AT IH TORONTO

International House Toronto is a member of the International House World Organization. International House was founded in 1953 and is now a network of over 140 language schools in over 40 countries. International House is committed to maintaining the highest standards of education and teacher training. To ensure that the highest quality of language instruction and teacher training is provided, all IH schools are inspected regularly.

Over the past 54 years, IH teachers have attained the renowned reputation for being amongst the most highly trained, creative and authoritative within their profession. Being trained by International House is undoubtedly a hallmark of excellence and outstanding professionalism.

With an increased demand for English fluency in the global market, more and more countries are regulating English schools. These schools are in turn looking for only qualified English teachers. At the moment, more than 85% of ESL students in Canada attend schools that are members of CAPLS (www.capls.com) or CLC (www.c-l-c.ca). Both of these associations require that their members hire only qualified teachers with TESL Canada Certification.

With this in mind, obtaining an IH Toronto Teaching Certificate will open the door for you into the teaching industry faster and more effectively than any other way.

ih TESL DIPLOMA PROGRAM

The IHT TESL diploma program offers an intensive teacher training program for proficient English speakers interested in teaching ESL in Canada or abroad. The program curriculum follows guidelines of both TESL Canada and TESL Ontario to create one of the most intensive teacher training programs available in Canada.

Once you have been accepted into the Program, you must be truly dedicated to completing the course and show enthusiasm and motivation for being a member of the program. The program also requires a great amount of outside classroom preparation time. You must be prepared to dedicate a large amount of time to homework assignments and lesson preparation.

The program is designed to teach you the skills necessary for preparing and conducting English classes at any level and under a variety of conditions.

An integral part of your program consists of teaching actual ESL classes to international students attending IH Toronto. These practicum sessions will start after your first week of study, giving you a chance to put into practice the ideas and concepts you learn in your classes.

ih TESOL DIPLOMA PROGRAM

The IH Toronto TESOL Diploma program is designed with a similar curriculum as the TESL Diploma. However, this program also includes some time dedicated to learning the fundamentals of the English language necessary to be a successful teacher.

This course is intended for native English speakers without a university degree or non-native speakers with a desire to teach English in their home country.

Much like the TESL program, the TESOL is also a very demanding program requiring that students commit a large portion of outside time to their homework and assignments. The duration of the course is longer and the modules of the program examine both teaching and English skills at the same time.
